

Groundwater Withdrawal Notice of Intent (NOI) New Well Construction

A. General Information.

1. Facility Name:

2. Owner:

7. Contact:

3. Address:

city: state: zip:

8. Address:

city: state: zip:

4. Telephone Number:

9. Telephone Number:

5. Fax Number:

10. Fax Number:

6. E-mail Address:

11. E-mail Address:

B. Purpose for Groundwater Use: (please indicate number of wells or sources beside description which best applies, include a combined estimated maximum monthly withdrawal in million gallons next to the description)

	Water Supply (WS)	MG		Industrial (IN)	MG
	Golf Course Irrigation (GC)	MG		Aquaculture (AQ)	MG
	Agricultural Irrigation (AI)	MG		Other (OT)	MG

C. Well Driller Information.

1. Company Name:

5. E-mail Address:

2. Well Driller's Name:

6. SC Certification Number:

3. Address: city: state: zip:

4. Telephone Number:

7. Fax Number:

D. Well Location/Construction and Site Details.

Include with the NOI the address of the facility, a USGS 7 1/2 minute quadrangle map depicting the location of each existing and proposed well(s). Include irrigated areas if withdrawing water for irrigation purposes. Include Latitude/Longitude for each well. Include a list of known users of groundwater within a 1 mile radius of the proposed well(s).

E. Signature/Certification.

I certify that the information herein is complete and all documentation was prepared under my direction or supervision and the information, to the best of my knowledge and belief is true, accurate, and complete.

Date:

NOI DHEC 3724 Directions

1. Purpose: To provide notifications and obtain information on the construction of new wells that will be located in existing well systems, or will alone plan to withdraw in excess of 3-million gallons in any one month located outside of a Capacity-Use Area and within the Coastal Plain. These counties include all of Aiken, Allendale, Bamberg, Barnwell, Berkeley, Calhoun, Charleston, Clarendon, Darlington, Dillon, Dorchester, Florence, Hampton, Lee, Marion, Marlboro, Orangeburg, Sumter, and Williamsburg counties, as well as those portions of Chesterfield, Edgefield, Kershaw, Lexington, Richland, and Saluda counties east or southeast of the fall line as identified on a Geologic Map.

2. Filing Process and Office Dynamics:

A. Once a NOI is received the Department will issue other persons or facilities within a mile radius already withdrawing 3-million gallons per month or greater a notice of the intended well construction.

B. Construction of the new well may not begin until 30 days after users within the mile radius have received a notification letter. SC DHEC will be responsible for notification once this 30-day time frame has expired.

C. After the 30 day notification period SC DHEC must be contacted at least 48 hrs. before construction of the new well begins, to make arrangements to obtain Geophysical Logs or other well data. You may call (803) 898-3559, or (803) 898-3531.

D. Once the well is drilled, the owner of the well is responsible to submit a Well Driller's Record, DHEC Doc. # 1903, or other approved construction forms to: SC DHEC, 2600 Bull St., Groundwater Mgmt. Section, Columbia, SC 29210.

3. Guide to Completing NOI Form:

A. Fill in steps 1-11 if applicable. For cells #1 – cell #6 please fill in the information of the individual who owns the facility. For cells #7 - cell #11 please fill in the information of the individual whom will be responsible for working with DHEC personnel on obtaining information included with this form.

B. To the left of the use of groundwater description put the number of wells owned by the facility to be used primarily for that purpose. To the right put in millions of gallons per month the total maximum estimated amount to be used collectively in any one month.

C. Complete the well driller's information.

D. Include an accurate map complete with a North arrow, scale, and legend, of the facility including operating wells, well identification, and a latitude/longitude of each well. A list should also be compiled of known persons or facilities using more than 3 million gallons per month within a mile radius.

E. This form should be signed by the individual who will hold ultimate legal responsibility.
